

CAPTAIN PAUL HEATHCOTE is a career aviator with experience spanning some 43 years in a wide variety of aviation, environment and management functions. A current A380 captain, Paul's engagement in the sustainable landscape includes time on an Environment Agency Committee and lecturing in Aircraft Operations and Sustainable Aviation since 2014. Paul currently chairs an advisory group at the Institute of Aerospace Technology at a Russell Group University and is also a member of the Mechanical Engineering Advisory Board at Bath University.

He remains curious about the system-wide interaction between technology, capital and environmental impact and how best to create innovation in a hard to decarbonise industry
